## Profile

Computer Science Engineering graduate with knowledge of Java development and backend development. Strong problem-solving skills. Seeking an entry-level opportunity to contribute and grow in a dynamic IT environment.

## Education

**Education Bachelor of Engineering (B.E.) – Computer Science and Engineering** Dhaanish Ahmed College of Engineering, Chennai, Tamil Nadu *Affiliated to Anna University | Accredited by NAAC (A+ Grade) | Approved by AICTE*

## EXPERIENCE

Java Programming Intern – CODTECH IT Solutions Pvt. Ltd

Java Programming Intern Successfully completed a 4-week internship in Java Programming. I had learn concepts like Object-Oriented Programming (OOPS) concepts, file handling, collections framework, JDBC integration with MySQL and Spring Boot. I have my improved Problem-solving skills and logical thinking.

## Project

### 1)Project Name: Online Bus Booking System

**Github link-** <https://github.com/2310Eswar/Online-Bus-Booking-System.git>

I had developed a front end and back end for the Online Bus Booking System using Java, applying Object-Oriented Programming (OOPS) concepts and I used front end for the HTML,CSS and JavaScript. The Frame Work I had used Spring Boot for more efficient and also a security prepose .I have used RESTAPI for doing the operation and also used Authentication.

### 2)Project Name: Rent Vehicle Management

**Github link-** <https://github.com/2310Eswar/RENT-OF-VECHICLE-RESTAPI.git>

I had developed a backend-based vehicle rental management system using Java, applying Object-Oriented Programming (OOPS) concepts . The Frame Work I had used Spring Boot for more efficient and also a security prepose. I have used RESTAPI for doing the operation and also used Authentication.

## Skills

- Java
- DSA
- Hibernate
- JDBC
- MySQL
- Rest API
- Spring Boot

## Courses

- Java Programming Intern, CODTECH IT Solutions Pvt. Ltd.
- Java for Beginners, Infosys Springboard
